

Full Moon Ceremony and Celebration

It is during the light of the full moon that we are able to bask in the fullness of the goddess and her light. The full moon is a time of opening, of releasing and of magic.

The horses join with us offering their guidance and their wisdom to help magnify the celebration and ceremony of the moon, our intentions and healing during this powerful time of the month.

Come and gather with us in this sacred circle and be embraced by the energy of the horse, the moon, and of mother earth.

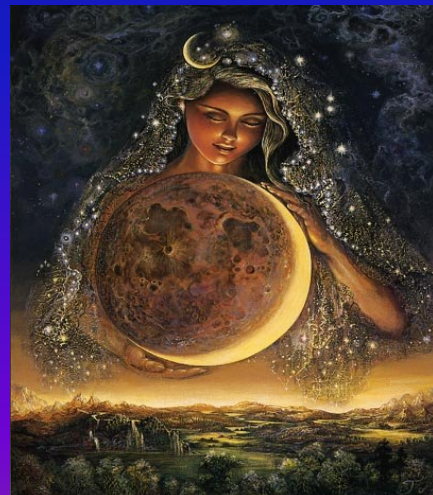

When: February 7th 2012 from 7-9 pm
